

Thesis/Abstracts of Internationals Conferences (2011)

1. Gluhih S., Kovalovs A., Tiskunovs A., Chate A. Flexural Modulus Identification of Thin Polymer Sheets // International Conference "Functional Materials and Nanotechnologies (FM&NT-2011) ": Book of Abstracts, Latvia, Riga, 5.-8. April, 2011. - pp 239-239.
2. Akishin P., Wesolowski M., Barkanov E. Non-Destructive Characterization of Nanocomposite Material Properties // International Conference "Functional Materials and Nanotechnologies (FM&NT-2011) ": Book of Abstracts, Latvia, Riga, 5.-8. April, 2011. - pp 190-190.
3. Kovalovs A., Gluhih S., Barkanov E. Methodology Development for Optimum Placement of Piezoelectric Actuators // International Conference "Functional Materials and Nanotechnologies (FM&NT-2011)": Book of Abstracts, Latvia, Riga, 5.-8. April, 2011. - pp 232-232.
4. Kovalovs A., Rucevskis S. Identification of Elastic Properties of Composite Plate // International Conference "Functional Materials and Nanotechnologies" (FM&NT-2011): Book of Abstracts, Latvia, Riga, 5.-8. April, 2011. - pp 233-233.
5. Rucevskis S., Wesolowski M. Damage Detection in Composite Beams // International Conference "Functional Materials and Nanotechnologies (FM&NT-2011) ": Book of Abstracts, Latvia, Riga, 5.-8. April, 2011. - pp 67-67.
6. Skukis, E., Barkanov, E. Universality of the Inverse Technique for the Viscoelastic Material Properties Characterisation // International Conference "Functional Materials and Nanotechnologies" (FM&NT-2011): Book of Abstracts, Latvia, Riga, 5.-8. April, 2011. - pp 238-238.
7. Čate A., Barkanovs J., Akišins P. Kompozīto materiālu un konstrukciju parametru identifikācija // Apvienotais pasaules latviešu zinātnieku III kongress un Letonikas IV kongress "Zinātne, sabiedrība un nacionālā identitāte", Tēžu krājums, Latvija, Rīga, 24.-27. Oktobris, 2011. - 180-180 lpp.
8. E. Labans, K. Kalniņš, K. Zudrags, Saplākšņa sendvičpaneļu ar viļņotu serdi eksperimentālās pārbaudes un skaitliskā modelēšana // Apvienotais pasaules latviešu zinātnieku III kongress un Letonikas IV kongress "Zinātne, sabiedrība un nacionālā identitāte", Tēžu krājums, Latvija, Rīga, 24.-27. Oktobris, 2011. - 203-203 lpp.
9. Gluhih S., Kovalovs A., Rucevskis S., Chate A. Flexural Modulus Identification of Thin Two Layers Polymer Shells // Baltic Polymer Symposium 2011: Programme and Abstracts, Estonia, Parnu, 21-24. September, 2011. - pp 62-62.
10. Rucevskis S., Chate A., Akishin P. Application of Modal Curvatures for Impact-Damage Detection in Composite Laminates // Baltic Polymer Symposium 2011: Programme and Abstracts, Estonia, Parnu, 21-24. September, 2011. - pp 71-71.
11. Manins M., Zike S. Textile Fabrics Reinforced Plywood with Enhanced Mechanical Properties // International Scientific Conference "Civil Engineering'11": Abstracts, Latvia, Jelgava, 12.-13. May, 2011. - pp 35-35.
12. Labans E., Kalniņš K. Numerical Versus Experimental Investigation of Plywood Sandwich Panels with Corrugated Core // International Scientific Conference "Civil Engineering'11": Abstracts, Latvia, Jelgava, 12.-13. May, 2011. – pp 37-37.
13. Zike S., Kalniņš K. Enhanced Impact Properties of Plywood Laminates // International Scientific Conference "Civil Engineering'11": Abstracts, Latvia, Jelgava, 12.-13. May, 2011. - pp 25-25.

14. E. Labans, K. Kalniņš, Optimum Design Guidelines for Plywood Sandwich Panels // Proceedings of OAS2011 – Optimization and Analysis of Structures, Tartu, Estonia, 25-27. August, 2011, pp 21-21.
15. E. Labans, K. Kalniņš, Elaboration of Design Guidelines for All-Plywood Sandwich Panels // Proceedings of IAWS, Stockholm, Sweden, 31. August – 2. September, 2011, pp 108-109.
